Skills

- **Languages**: C++, Java, C, Python
- **Frameworks**: HTML and CSS, Bootstrap, NodeJS, React
- **Tools/Platforms**: MySQL, MongoDB
- **Soft Skills**: Problem-Solving, Team Player, Project Management, Adaptability

Projects

- Cyber Incident Feed Monitoring Tool — Oct' 2025 – Dec' 2025
- Developed a Cyber-Incident-Feed-Monitoring Tool that continuously aggregated and monitored real-time cybersecurity threat intelligence feeds from multiple reliable sources to provide up-to-date security insights.
- Designed and deployed automated alert systems that generated real-time notifications for critical threats based on severity, impact level, and relevance to the system.
- Integrated external APIs and data pipelines to collect information on vulnerabilities, malware attacks, phishing campaigns, and security breaches from public and private threat intelligence platforms.
  Tech: Python

- AI EXAM: The AI-Powered Examination Platform — Aug'2025 - Oct' 2025
- Developed an AI-powered examination platform that automated question generation, evaluation, and performance analysis to enhance efficiency and reduce manual intervention in academic assessments**.**
- Integrated intelligent algorithms to personalize question papers based on student performance, difficulty levels, and learning patterns, ensuring adaptive and fair testing experiences.
- Designed a secure examination environment by incorporating AI-based proctoring systems that monitored user behavior, detected suspicious activities, and prevented cheating during online exams. **| GitHub**
  Tech: React, tailwind CSS, JavaScript, MongoDB, API, Gemini Api

- Hand Gesture Recognition System — Apr' 2025 - May' 2025
- Designed a real-time processing pipeline that captured video input through a camera, processed frames efficiently, and delivered instant gesture-based outputs**.**
- Enabled gesture-based control functionalities to interact with systems or devices, reducing dependency on traditional input methods like keyboards and mice.
- Optimized system performance to ensure low latency and high responsiveness, making it suitable for real-time applications such as virtual control systems and assistive technologies. | **GitHub**
  Tech: React, Python, Numpy, Pandas, SVM

Training

- For successfully completing the FLAMES '25 Training Program, — Jul' 2025
  an intensive course on Full Stack (MERN) with Gen AI with Industrial Practice Certificate | Certificate | W3grade

Certificates

- SQL Intermediate | Certificate | Hackerrank — Feb' 2026
- Data Analytics Job Simulation | Certificate | Deloitte — Feb' 2026
- Microsoft Copilot | Certificate | Coursera — Jan' 2026
- Software Development Processes and Methodologies | Certificate | Coursera — May' 2024
- AWS Cloud Practitioner Essentials | Certificate | Coursera — Feb' 2024

Achievements

- Founder & COO, Metaverse Club – Lovely Professional University — Aug' 2025
- Founder & COO of the Metaverse Club at Lovely Professional University, leading initiatives in virtual innovation and immersive technologies.

Education

- Lovely Professional University — Punjab, India
  Bachelor of Technology – Computer Science and Engineering; **CGPA: 7.2** — Aug'2023 - Present
- Children's Academy — Kanpur, Uttar Pradesh
  Intermediate; **Percentage: 96.6%** — Apr'2022 – Mar'2023
- Children's Academy — Kanpur, Uttar Pradesh
  Matriculation; **Percentage: 89.9%** — Apr'2020 – Mar'2021
